

Chunk

BAND STORY

"

The heavy grooves, hook-filled melodies, and powerful vocals in CHUNK'S music are an interesting twist on the traditional hard rock sound, leaping from the realm of Disturbed or Godsmack. Their use of two similar-sounding lead vocalists, combined with a three-piece configuration, creates a unique punch to their sound and adds excitement to their live-show. Lyrics range in topic from the sad state of the earth, to a biting commentary on the ills of the fashion industry. To experience CHUNK is to see them live, with energetic, sincere, and consistent performances from all members. This year the band is busy building up their fan base with upcoming shows, touring, and writing for their next album. The early reports on the album's preproduction tapes are outstanding. This band just might be unstoppable.
