

Newton

BAND STORY

"

Newton hails from the small but friendly city, Port Elizabeth. The three members, Wayne Simpson, David Els and Errol Mallinson, stand as the backbone of Newton. Each of them fueling into the music waves of creativity. After playing a fair amount of gigs in PE, Newton relocated to Pretoria in 2007. Spending a whole year there, redefining the music and completing the first album, Whales and Fishbowls. Only 500 copies of the album were printed, making it a bit of a collectors item in the not to far future. Upon their return to Port Elizabeth a new resolve was made to take the band to the next level. With a fairly successful album, but much more to be learnt. Newton sets their eyes on relocating by the end of 2008.
